

PARTNERS IN PROGRESS

Humble Beginnings.....A History of Bringing Glory to God

"My wife Catharine and I will be serving as missionaries with Bill McDonough and his wife Marie-Claire under the umbrella of Partners in Progress, the missionary effort Bill co-founded in 1979. At that time he had already been doing full-time mission work since 1965. If you decide to help support my wife and I you will become part of one of the longest-serving mission efforts in the brotherhood. As you make it possible for me to serve alongside Bill, and eventually succeed him as the International Director of Partners in Progress, you will be ensuring the continued existence and service of this valuable mission effort." **Kevin Carson**

1979

Partners in Progress conducts its first medical mission on the island of St. Vincent in the Caribbean. Visiting medical professionals from the Church of Christ operate an outpatient clinic in the church building of the local congregation.

1980-82

Partners in Progress organizes food convoys into Poland. Over \$2,000,000 worth of food is distributed to Churches of Christ, orphanages, hospitals and others. One trip involved fifty trucks. God uses this work to move the communist authorities in Poland to grant legal status to the Church of Christ in April of 1982.

1980's to the Present

Partners in Progress provides physical care and spiritual teaching to the people of 58 nations on 4 continents. Some of the countries include Ethiopia, Haiti, Guyana, Jamaica and Ukraine in the 1980's; Romania, Albania, Cuba, Georgia, Vietnam, Laos and Kosovo in the 1990's; Sri Lanka, Indonesia, Cambodia, Burma, Hungary, Romania and Norway since 2000.

*"Where there is a
famine, earthquake
or natural disaster,
Partners in Progress
and Bill McDonough
can be found
working to share the
love of God."*

*- Quoted from Bill McDonough's
2011 book "Those Who Make Us
What We Are."*
